

Protecting the Protectors: The Save Healthcare Workers Act H.R. 3178

A Call for Nursing Education Leaders to Support
Safeguarding Nurses and Healthcare Workers

Fellow Academicians,

At Transformational Healthcare Network and Nurse Potential, LLC, we believe it is high time that federal legislators become more prolific with creating and passing legislation designed to protect the respect, dignity, privacy, and above all, safety of all nurses and healthcare workers. ***Their lives may depend on it.***

Currently, there is no federal law in place to protect nurses and healthcare workers from workplace violence.

The time to act is NOW.

The Save Healthcare Workers Act (H.R. 3178)

This bipartisan legislative proposal is an important step that offers hope and momentum toward enacting law that protects nurses and healthcare workers.

Your support is requested for this bill. Your voice as a Dean, Administrator, and Professor matters. Your leadership shapes the future of nursing education, practice, and policy.

Let's work together to ensure all nurses and healthcare workers are respected, protected, and empowered.

Start the Conversation with Students & Colleagues

- What do you like about this bipartisan legislative proposal?
- How can we ensure this H.R. 3178 “reaches the floor” of the US House of Representatives for a vote?
- If H.R. 3178 is signed into law, what are some of your ideas as healthcare students, faculty, workers, and advocates to ensure that the law is consistently enforced?
- What else can **you do** to promote H.R. 3178?
